EDUCATION

Oregon State University

Corvallis, OR

B.S. in Computer Science, Minor in Statistics + M.Eng. in Computer Science (AMP) Expected June 2027 / 2028

GPA: 3.92 | Dean's List: Fall 2023 - Present

Relevant Coursework: Object-Oriented Programming, Data Structures, Algorithms, Databases, Web Development

PROFESSIONAL EXPERIENCE

Cloud Infrastructure & DevOps Intern

Jan. 2026 – Present

Stantec

Portland, OR

- Spearheaded Microsoft AI Foundry governance across 150 landing zones (300 subscriptions), developing automated PowerShell scans to audit 20+ AI agents daily, and authoring Azure Policies enforcing private networking.
- Engineered a self-service permission management tool using Azure Functions, Graph API, and OAuth 2.0 delegated authentication, automating SharePoint access requests and reducing turnaround by 95% for landing zone teams.
- Modernized cloud infrastructure using Bicep, migrating legacy ARM templates and deploying infrastructure-as-code through Azure DevOps CI/CD pipelines across multiple subscriptions and environments.
- Developed PowerShell automation solutions integrating security tooling with cloud APIs to enable proactive vulnerability scanning and compliance monitoring, leveraging KQL queries for log analysis across infrastructure.

AI/ML Research Intern

Jun. 2026 – Present

Oregon Health & Science University

Portland, OR

- Researching algorithmic fairness in clinical prediction models and LLMs at OHSU's Ethical AI in Healthcare Lab, applying group fairness metrics with Fairlearn on MIMIC-III and n2c2 clinical datasets.
- Developing a Python fairness toolkit with novel parity metrics (recall, precision, F1) for clinical text extraction, using SQL to query MIMIC-III cohorts and audit subgroup performance across race, sex, age, and insurance.

Peer Tutor

Oct. 2024 – Present

TRIO Student Support Services

Corvallis, OR

- Provided individual tutoring and designed personalized learning plans for students within the TRIO SSS program, serving a cohort of 400+ from disadvantaged backgrounds with programming, calculus, and statistics courses.

PROJECTS

NBA Three-Point Shot Trend Dashboard | *R, R Shiny, ggplot2, plotly, bslib, tidyverse*

- Engineered an interactive data dashboard using R Shiny to analyze 14 million NBA play-by-play records across 24 seasons, enabling dynamic filtering by team and season to surface trends in shot selection and performance.
- Cleaned and transformed raw large datasets into aggregated data structures, reducing data load time significantly, and developed interactive plotly charts with custom tooltips to communicate three-point shot metrics to users.

NFL Games Predictor | *Python, Pandas, NumPy, scikit-learn*

- Built and validated a logistic regression model on NFL play-by-play and box score data, engineering offensive and defensive features from merged datasets to achieve 71% prediction accuracy via 5-fold cross-validation.

LEADERSHIP EXPERIENCE

President

Society of Asian Scientists and Engineers (SASE)

Corvallis, OR

- Grew active membership by 80% to 100+ students, establishing SASE as one of the largest organizations on campus while directing executive board operations and representing OSU at regional and national levels.
- Led 20 professional development events annually and funded travel for 12 members to national SASE conferences.

TECHNICAL SKILLS

Languages: Python, SQL, C/C++, JavaScript, R, HTML/CSS, PowerShell, Bicep, KQL

Frameworks/Technologies: NumPy, pandas, scikit-learn, React, Next.js, Node.js, Tailwind CSS

Tools: Git, Azure, Azure DevOps, GitHub, Power BI, Tableau, Figma, Vercel, ServiceNow
